WE MAKE IT HAPPEN

COMPANY PROFILE

Mfrs of Press metal components

ABOUT US

Jaya Automotive Components, an ISO 9001:2015 Certified company specialises in Technical Metal Presswork, Welding and Mechanical Assemblies for a range of customers from several market sectors including Automotive, Water treatment plants and Domestic Appliances. JAC was established in 2012 as a sister concern partner of JAYA SPRINGS, a manufacturer of springs and press metal products since 1989. The main reason behind the setting up of our firm was to cater to high-performance product lines in the metal pressings at the stiff global prices. Serving a variety of industries, our engineers create a bespoke experience for each client, from the early stages of design and development, through to manufacture and delivery.

At each stage along the way, we pride ourselves on delivering the best solution for your needs, in the most efficient and cost-effective way, all while pushing the boundaries of technology. Our intent is to enhance our reputation and become the first choice component part supplier for market-leading companies.

OUR POLICY

MISSION

To achieve a higher market share by offering quality pressed metal products to our customers having understood their specific requirements.

VISION

Our vision is to become the leading manufacturer of pressed metal components through consistently delivering high quality products with an efficient quality management system, effective customer service and on time delivery.

QUALITY POLICY

Our policy is to conform and comply with customer, applicable statutory and regulatory requirements. We at JAC are committed for continual Improvements in quality management system to achieve customer satisfaction in quality, cost and delivery through total employee involvement

WHY COMPANIES PREFER US ?

TOOL ROOM FACILITY

A tool room contributes majorly to the growth of the manufacturing sector and is known as “the mother of industry”. Understanding its importance, we are equipped with an Inhouse Tool Manufacturing facility. A well-equipped tool room deployed with tooling machines aims to produce the most high-grade quality tools for the industry and also backs up the production requirements. Our most skilled team of engineers and designers make sure that these high-quality tools are manufactured with the most optimal mechanism. This practice also helps us deliver complicated tools at the fastest pace.

PRESS SHOP FACILITY

We are equipped with power presses ranging from 10 Ton to 150 Ton to cater to every need of our customers.

INSPECTION FACILITY

The Product profiles, consistency in quality, product strength & performance is maintained through an inhouse effective inspection facility to make sure that only high-quality products are delivered to our customers

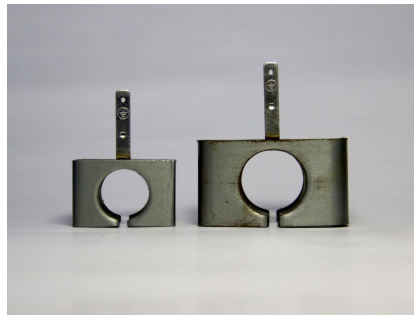

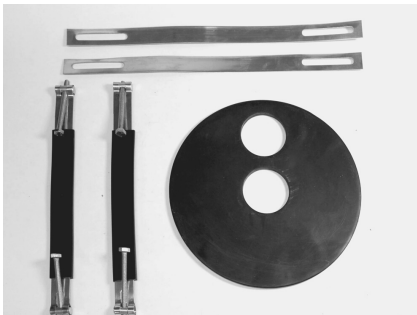

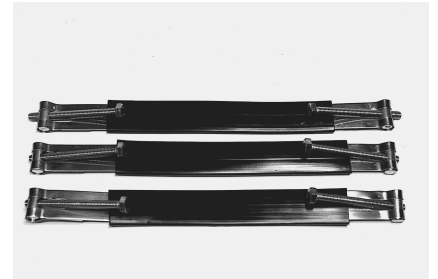

MACHINES & EQUIPMENTS

| S.NO | M/C DESCRIPTION | CAPACITY |
|------|-----------------------|-------------|
| 1 | Mechanical Press | 10 T |
| 2 | Mechanical Press | 30 T |
| 3 | Pneumatic Power Press | 25 T |
| 4 | Pneumatic Power Press | 35 T |
| 5 | Pneumatic Power Press | 60 T |
| 6 | Pneumatic Power Press | 45T |
| 7 | Pneumatic Power Press | 80 T |
| 8 | Pneumatic Power Press | 100 T |
| 9 | Pneumatic Power Press | 150 T |
| 10 | Frame winding machine | 2 HP |
| 11 | Drilling Machine | 1mm-13mm |
| 12 | Folding Machine | RG 25 |
| 13 | Tapping Machine | 2.5mm-10mm |
| 14 | Shearing Machine | 0.5mm-2.5mm |
| 15 | Hand Press | 2T |
| 16 | Compressor | 25KVA |
| 17 | Hand Grinding Machine | |
| 18 | Lathe | |
| 19 | Milling Machine | |
| 20 | Surface Grinding | |
| 21 | TIG Welding | |
| 22 | MIG Welding | |
| 23 | SPOT Welding | |
| 24 | Projection Welding | |

A customer is the most important visitor on our premises, he is not dependent on us. We are dependent on him. He is not an interruption in our work. He is the purpose of it. He is not an Outside in our business. He is part of it. We are not doing him a favour by serving him. He is doing us a favour by giving us an opportunity to do so.
